

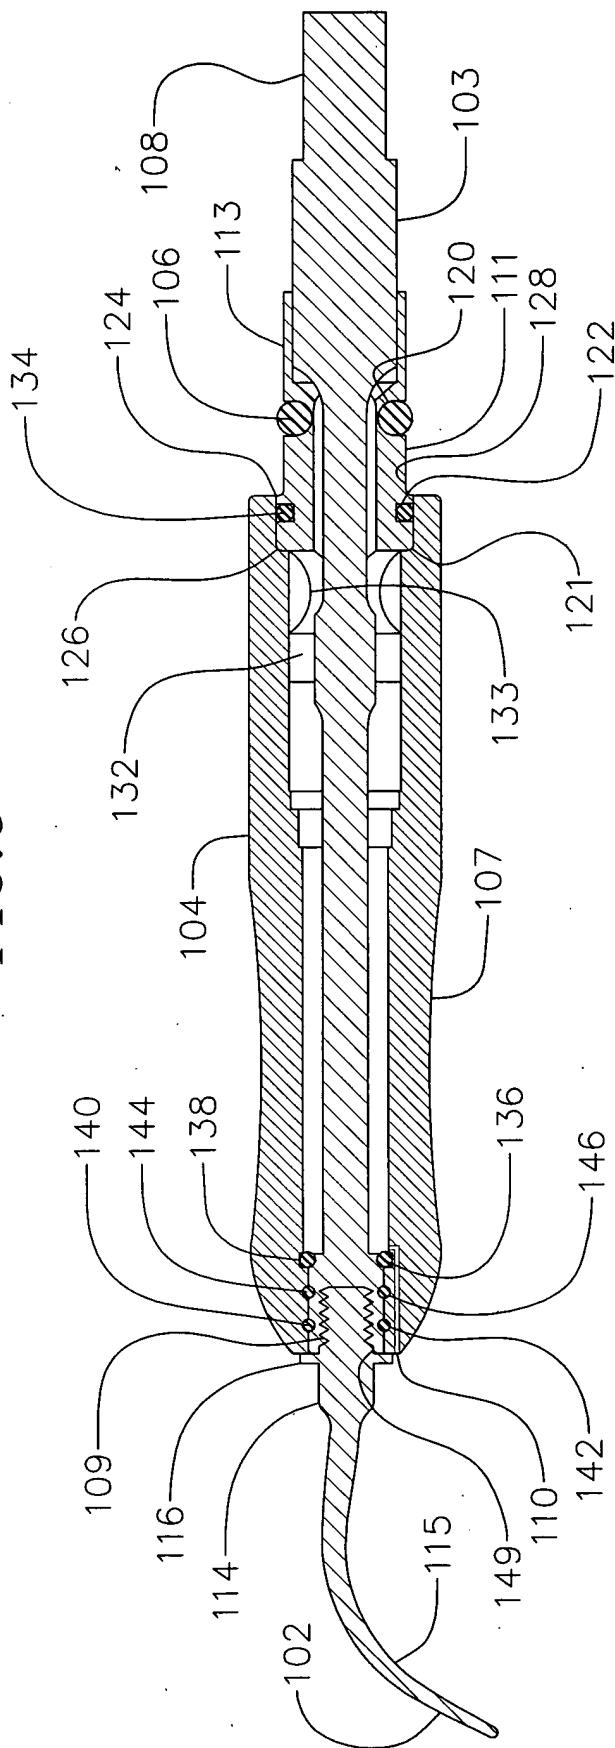

FIG. 3 is a cross-sectional view of a medical device assembly, likely a catheter or probe, showing internal components and a handle. The device has a central shaft with a distal tip and a handle with a trigger mechanism. Various parts are labeled with reference numerals:

- 102: Distal tip of the shaft.
- 104: Central shaft.
- 106: Internal component within the shaft.
- 108: Outer sheath or housing.
- 110: Trigger mechanism on the handle.
- 112: Internal component within the handle.
- 114: Trigger mechanism on the handle.
- 116: Internal component within the handle.
- 118: Trigger mechanism on the handle.
- 120: Internal component within the handle.
- 122: Trigger mechanism on the handle.
- 124: Internal component within the handle.
- 126: Trigger mechanism on the handle.
- 128: Trigger mechanism on the handle.
- 130: Trigger mechanism on the handle.
- 132: Trigger mechanism on the handle.
- 134: Trigger mechanism on the handle.
- 136: Trigger mechanism on the handle.
- 138: Trigger mechanism on the handle.
- 140: Trigger mechanism on the handle.
- 142: Trigger mechanism on the handle.
- 144: Trigger mechanism on the handle.
- 146: Trigger mechanism on the handle.
- 148: Trigger mechanism on the handle.
- 150: Trigger mechanism on the handle.
- 152: Trigger mechanism on the handle.
- 154: Trigger mechanism on the handle.
- 156: Trigger mechanism on the handle.
- 158: Trigger mechanism on the handle.
- 160: Trigger mechanism on the handle.
- 162: Trigger mechanism on the handle.
- 164: Trigger mechanism on the handle.
- 166: Trigger mechanism on the handle.
- 168: Trigger mechanism on the handle.
- 170: Trigger mechanism on the handle.
- 172: Trigger mechanism on the handle.
- 174: Trigger mechanism on the handle.
- 176: Trigger mechanism on the handle.
- 178: Trigger mechanism on the handle.
- 180: Trigger mechanism on the handle.
- 182: Trigger mechanism on the handle.
- 184: Trigger mechanism on the handle.
- 186: Trigger mechanism on the handle.
- 188: Trigger mechanism on the handle.
- 190: Trigger mechanism on the handle.
- 192: Trigger mechanism on the handle.
- 194: Trigger mechanism on the handle.
- 196: Trigger mechanism on the handle.
- 198: Trigger mechanism on the handle.
- 200: Trigger mechanism on the handle.
